Short write up about IIT Palakkad.

The Indian Institutes of Technology (IITs) were established by the Government of India as Institute of National Importance through a Central Statute, the Institutes of Technology Act, 1961. The success of the initially founded IITs at Kharagpur (1951), Bombay (1958), Madras (1959), Kanpur (1959) and Delhi (1961) led to the demand for establishment of more such institutions across the country. An IIT in the state of Kerala was proposed in the July 2014 union budget and on November 20, 2014 IIT Madras was designated as the mentor institute by the Ministry of Human Resources and Development. IIT Palakkad came into existence and is currently functioning from a temporary place in the premises of Ahalia integrated campus Kozhipara, Palakkad. Approximately 500 acres of land bordering the Sahya Mountain range and adjoining the Coimbatore- Kanyakumari national highway at Palakkad, was indented as the site for the permanent campus on January 17, 2015. The academic activities at IIT Palakkad were formally launched, with a welcome Programme for the first batch of B.Tech students on August 03, 2015. Lok Sabha passed a bill for the establishment of six new IITs on July 25, 2016.

A vibrant campus with world-class sustainable green buildings has been planned. The first phase of construction consisting of an Auditorium, an academic complex with class rooms and offices, a laboratory complex and hostels to accommodate two batches of students are expected to be completed by early 2018. These facilities will be converted to a convention centre, an incubation centre and guest houses, when the second phase of construction is completed.

Project Description: A water cascade and a granite sculpture is to be designed as an integrated package by the artist. The sculpture is to be positioned next to the porch of the academic building. A small triangular shaped water body of depth two meters and side 10 meters is being created in front of this building and the proposal is to have a water cascade cum sculpture within this water body. The planned location of the sculpture cum water cascade will be visible from the entrance to the campus. It is expected to be an iconic sculpture where the visitors and students who are passing out would want to be photographed.

It is expected that the sculpture is of contemporary style. The themes proposed include

- 1) A technological institute in dynamic equilibrium with its surroundings.
- 2) Technology and research from artisans to blue sky
- 3) Science and Technology for the welfare of humanity and

4) Labour to engineer: together for the development of the country. In addition several one word themes a) Creativity, Discovery, Innovation and Knowledge acquisition are proposed.

The artist can come up with their own theme that is in sync with the general mission of the institute to train manpower and develop technology and knowledge for the welfare of the humanity.

Location: In front of the Academic complex, IIT Palakkad, Pudussery West, Palakkad

Approximate dimensions of the sculpture: Base 7 feet x 7 feet, Height approximately 20 feet.

Medium: Granite

Time of completion of the project: Two months from date of award of the work

Procedure for selection of the artist:

The selection will be through a two stage competition consisting of Stage- I Design proposal and Stage II financial proposal. Design proposal - Interested artists/sculptors are requested to send preliminary sketches of the proposed sculpture, along with a one page write up explaining the theme used in a sealed envelope. The financial proposal should include, apart from the honorarium for the sculptors, cost of all materials, transportation charges, loading and unloading, installation etc.

A jury appointed by the Institute will evaluate the Design proposals and shortlist the qualified bidders to open their financial bid, decision of shall be final and binding of eligible bidders/artists financial proposal of only those shortlisted artists will be opened. If the shortlist contains more than one design proposal then one with lowest financial quote will be declared as the winner.

The design proposal can contain multiple designs in one envelope. ***However, the financial proposal (financial bid) for each design should to be submitted in separate sealed envelopes superscribing the identification of respective design on the financial bid.***

Completion certificate for the completed works from respective clients certifying ability of the applicant, technical knowhow and duly signed by client along with copy of work order should be enclosed

Note: IIT Palakkad will provide electricity and water at the workplace and will provide necessary assistance to locate suitable accommodation for the artists if requested. IIT Palakkad is not in a position to provide living spaces for the artists. All materials required for the work should be arranged by the artists themselves.

MODE OF PAYMENT OF FEE

1) The Artist shall be paid based on the lumpsum amount quoted by him as per the

financial bid submitted for the respective design proposal provided by him and which are duly approved by the Institute for actual execution at site.

- 2) Income tax: Deduction at source of 10% on professional charges will be made from the consultant's bill, as applicable to professional consultants.
- 3) GST of any other tax applicable in respect of inputs procured by the contractor for this contract shall be payable by the contractor and government will not entertain any claim whatsoever in respect of the same. However, component of GST at time of supply of service (as provide in CGST act 2017) provided by the contract shall be varied different from that applicable on the last date of receipt of tender including extension if any.
- 4) The fees payable to the consultant shall be in full discharge of functions to be performed by the consultant and sub consultants and no claim whatsoever against the department in respect of any proprietary right or copy right by the consultant or any other party shall be entertained. The Consultant shall assume all liability, financial or otherwise in connection with this contract and shall protect and indemnify the department from any and all damages and claims and / or liability arising out of violations by himself or by his employees or his authorised representatives/ sub consultant of patent rights, royalties, design, trademarks of name or other protected rights, or any other reasons whatsoever, and shall himself defend all actions arising from such claims and shall indemnify the department in all respect from such actions, cost and expenses. Nothing extra shall be payable on this account.

ABANDONMENT OF WORK BY CONSULTANT

1. That if the consultant abandons the work for any reasons whatsoever or becomes incapacitated from acting as consultant as aforesaid, the employer may make full use of all or any of the drawings prepared by the consultant and proceed from the stage from where the consultant left on the work.
2. The consultant shall be credited with and paid all fees as accrued for work done by him up to the date of abandonment but he shall be liable to pay damages suffered by department, which are to be assessed by the employer due to such abandonment. The difference shall be paid to or by the consultant as the case may be provided, however, that in the event of termination of the agreement after proper notices, the consultant shall be liable to refund any excess payment made to him over and above what is due to him in accordance with the terms of this agreement for the services provided by him till the date of termination of the agreement.
3. The consultant shall address all communications regarding the work to the Registrar, IIT Palakkad only.
